

July 2, 2019

Memorandum #2018-109

TO: Regional Connectors Study Steering (Policy) Committee

BY: Camelia Ravanbakht, RCS Project Coordinator

RE: Regional Connectors Study

Attached is the agenda for the **Regional Connectors Study Steering (Policy) Committee meeting** scheduled for **Tuesday, July 9, 2019 at 10:00 am** at the Regional Building Board Room, located at 723 Woodlake Drive, Chesapeake, VA 23320.

MK/nb

Voting Members:

Rick West (CH)
Donnie Tuck (HA)
McKinley Price (NN)
Martin Thomas (NO)
John Rowe (PO)
Linda Johnson (SU)
Robert Dyer (VB)

Nonvoting Members:

Tim Dolan (USCG)
Gene Leonard (USCG)
CAPT Michael Hayes (USN)
COL Patrick Kinsman (COE)
Keith Lockwood (COE)
Gregory Steele (COE)
Ivan Rucker (FHWA)
John Reinhart (VPA)
Christopher Hall (VDOT)
Craig Quigley (HRMFFA)
Kevin Page (HRTAC)

Staff:

Bob Crum (HRTPO)
Mike Kimbrel (HRTPO)
Rob Case (HRTPO)
Kendall Miller (HRTPO)
Keith Nichols (HRTPO)
Dale Stith (HRTPO)

Project Coordinator:

Camelia Ravanbakht

Agenda

Regional Connectors Study Steering (Policy) Committee

July 9, 2019

10:00 AM

The Regional Building, Regional Board Room, 723 Woodlake Drive, Chesapeake, Virginia

1. Call to Order
2. Welcome and Introductions
3. Public Comment Period (Limit 3 minutes per individual)
4. Minutes

Summary Minutes from April 30, 2019 Steering (Policy) Committee Meeting:

Attachment 4

Recommended Action: For Approval

5. Regional Connectors Study: Phase 2 Supplement Budget Omission: Craig Eddy, MBI

The Consultant Team Project Manager inadvertently omitted subconsultant EDR Group's budget from the Phase 2 supplement budget that was approved by the HRTPO Board on May 16, 2019. The omitted amount is \$106,421 as shown in the attached subsequent Phase 2 supplement. The supplement includes no scope change, the work associated with this cost was included in the supplement approved by the HRTPO Board in May and is well underway.

The RCS Working Group reviewed this item at its June 13, 2019 Meeting and has recommended approval.

The goal is to seek approval to increase the study budget to cover EDR Group's efforts from the Steering (Policy) Committee on July 9 and the HRTPO Board on July 18.

Attachment 5 – Phase 2 Supplement Budget Omission

- Recommended Action: For Discussion and Approval

6. Regional Connectors Study: Phase 2 Status Report: Craig Eddy, MBI

The RCS Phase 2 Scope of Work consists of two primary tasks:

- Execute Study Engagement Plan
- Conduct Scenario Planning

Mr. Craig Eddy, RCS Project Manager, will brief the Steering (Policy) Committee with an update of the RCS Phase 2 Tasks.

Attachment 6 – Phase 2 Tasks/Schedule

Recommended Action: For Information and Discussion

7. Regional Connectors Study: Scenario Planning: Lorna Parkins, MBI

Scenario planning is a non-traditional type of planning that, while gaining popularity in the industry, differs from traditional planning methods in that it is exploratory and not predictive in nature.

Traditional planning makes predictions about the patterns and quantities of future land use and then correlates that land use to different modes of travel. Scenario planning, on the other hand, takes the traditional planning method a step farther and looks at potential influences on the types and quantities of land use. Potential technological (e.g., the new trans-Atlantic fiberoptic network, connected/autonomous vehicles, ridesharing), environmental (e.g., sea level rise, resiliency), and economic (e.g., increased freight capacity and military presence) influences are explored in scenario planning to forecast what regional conditions might be like if a combination of these influences come to fruition in the future.

Ms. Lorna Parkins, MBI, will brief the Steering (Policy) Committee with a review of the scenario planning and its components:

- Scenario Narratives - (Attachment 7A)
- Options for Greater Growth Employment Level - (Attachment 7B)
- Goals, Objectives, and Performance Measures - (Attachments 7C.1 and 7C.2)

The RCS Working Group, at its June 13, 2019 Meeting, thoroughly reviewed and recommended approval of each of the above scenario planning components.

- Recommended Actions: For Discussions and Approvals

8. Next Meetings and Planned Activities: Camelia Ravanbakht, RCS Project Coordinator

- HRTPO Board Meeting – July 18, 2019, 10:30 AM
- RCS Working Group Workshop: August 15, 2019, 10 AM – 12 PM
- Tour of the Navy Fuel Depot: September 2019
- Tour and Presentation of the Craney Island Proposed 4th Marine Terminal:
October 2019

9. Adjournment

**Regional Connectors Study (RCS)
Steering Committee Meeting
Minutes
April 30, 2019, 9:00am
Chesapeake Public Safety Operations Center, Chesapeake**

The following were in attendance (alphabetically by last name):

James Baker (Chesapeake)
Rob Case (HRTPO)
Bob Crum (HRTPO)
Rick Dwyer (HRMFFA)
Craig Eddy (Michael Baker Intl.)
Brian Fowler (Norfolk)
Amy Inman (Norfolk)
Carl Jackson (Portsmouth)
Mike Kimbrel (HRTPO)
Michael King (Navy)
Keith Lockwood (Army Corps)
Barbara Nelson (VPA)
Keith Nichols (HRTPO)
Dawn Odom (VDOT)
Kevin Page (HRTAC)
Lorna Parkins (Michael Baker Intl.)
McKinley Price (Newport News)
Craig Quigley (HRMFFA)
Camelia Ravanbakht (RCS Project Coordinator)
Dustin Rinehart (VPA)
John Rowe (Portsmouth)
Earl Sorey (Chesapeake)
Dale Stith (HRTPO)
Martin Thomas (Norfolk)
Donnie Tuck (Hampton)

1. Call to Order

Bob Crum (HRTPO) called the meeting to order at 9:09am.

2. Welcome and Introductions

Attendees introduced themselves around the table.

3. Committee Organizational Structure

Bob Crum presented the idea of the committee nominating a voting member as chair. Mayor Price (NN) was chosen as chair, and he appointed Mayor Rowe (Portsmouth) as vice chair.

4. Public Comment Period

There were no public comments.

5. Minutes

The minutes of the Feb. 13, 2019 meeting were approved.

6. Phase 2 (scaled down) Tasks Status Report

Craig Eddy (MBI) presented slides concerning his team's recent work.

7. Phase 2 Supplemental Scope of Work, Cost and Budget

Craig Eddy (MBI) presented slides concerning the Phase 2 Supplemental Scope (additional subtasks within Scenario Planning, Task 4). The committee approved the Phase 2 Supplemental Scope, forwarding it to the HRTPO Board for approval at its May 16, 2019 meeting.

8. Schedule and Next Meetings

- Working Group Scenario Planning Webinar #5: May 2, 2019; 10am.
- Craney Island Site Visit: 9am, May 3, 2019; 9am, Craney Island.
- HRTPO Board Meeting: May 16, 2019 (anticipate Phase 2 Supplement approval).
- Working Group Scenario Planning Workshop: May 21, 2019; 10am.
- Webinar #6: June 6, 2019; 10am.

Carl Jackson (Portsmouth) asked about involving economic development departments, and Bob Crum said that he plans to present the RCS to them at the next HREDA meeting.

7. Adjournment

The meeting was adjourned at 9:41am.

Scenario Narratives & Working Group Guidance

- Through the series of webinars and workshops since February, the working group completed the following activities:
 - Reviewed the basics of exploratory scenarios and scenario drivers
 - Completed a questionnaire on potential scenario drivers
 - Reviewed potential economic narratives for the scenarios
 - Suggested that the scenario narratives be organized by spatial themes
 - Refined draft scenario narratives and drivers in a workshop
 - Approved the draft scenario narratives that follow

Scenarios Organized around Spatial Themes

DRAFT

Greater Growth on the Water

What happens if jobs focus on the waterfront, housing choices are varied, and transportation technology adoption is moderate?

Greater Growth in Urban Centers

What happens if jobs and housing focus in urban areas, with greater multimodal availability and high adoption of connected vehicle technology?

Greater Suburban/ Greenfield Growth

What happens if jobs and housing are developed in dispersed activity centers, with a higher level of truck transportation and high adoption of autonomous vehicle technology?

Scenario Narratives

DRAFT

Greater Growth on the Water

Growth in water-oriented activity. Port of Virginia becomes even more competitive with freight more multimodal. More dispersed housing locations. Moderate assumptions for CAV adoption and network adaptation.

Greater Growth in Urban Centers

Significant economic diversification. Low space requirements per job. Large role for “digital port.” New professionals prefer to live/work in urban settings. High level of CV adoption and low auto ownership/high TNC mode.

Greater Suburban/Greenfield Growth

Growth is suburban/ exurban, but growth includes walkable mixed use centers. Port of Virginia becomes even more competitive. “Digital port” brings additional jobs. Housing is more suburban. High level of AV adoption and network adaptation.

WHAT THESE WILL HELP US TEST

Test greater cross-harbor travel in particular.

Test more urban and multimodal travel patterns.

Test more overall regional travel.

NOTE: Sea Level Rise assumed as 3 ft. in all Scenarios

ATTACHMENT 7B

Greater Growth Scenarios

- All scenarios will include the same level of additional growth over the 2045 Baseline forecast for employment and populations
- The land use allocation model will allocate the *increment* of additional growth differently for each scenario
- The land use model will deliver the combined greater growth allocation (2045 baseline + greater growth) by TAZ to the travel demand model
- The travel demand model will be run for each scenario with the Existing plus Committed (E+C) Network in task 4.7, and then with the each RCS alternative under each scenario (Phase 3)
- The discussion that follows considers what is a workable control total for greater growth in employment. The population control total will be derived based on the employment total using the region's REMI economic model.
 - For reference, the baseline 2045 forecast has 8% employment growth and 17% population growth

Employment growth over time (retrospective)

Employment Growth (Indexed to 1970)

Relative to HRTPO:

- VA grew significantly faster
- US grew slightly faster on aggregate

Nationally and in HR:
The next 30 years of employment growth are forecast to be significantly slower

Source: Bureau of Economic Analysis (HRTPO data as reported in 2045 Socioeconomic Forecast Report)

Attachment 7B

Regional Employment Added by 2045

% Increase 2015-2045:

■ HRTPO 2015 Employment ■ Baseline Jobs Added by 2045 ■ Additional Scenario Jobs by 2045

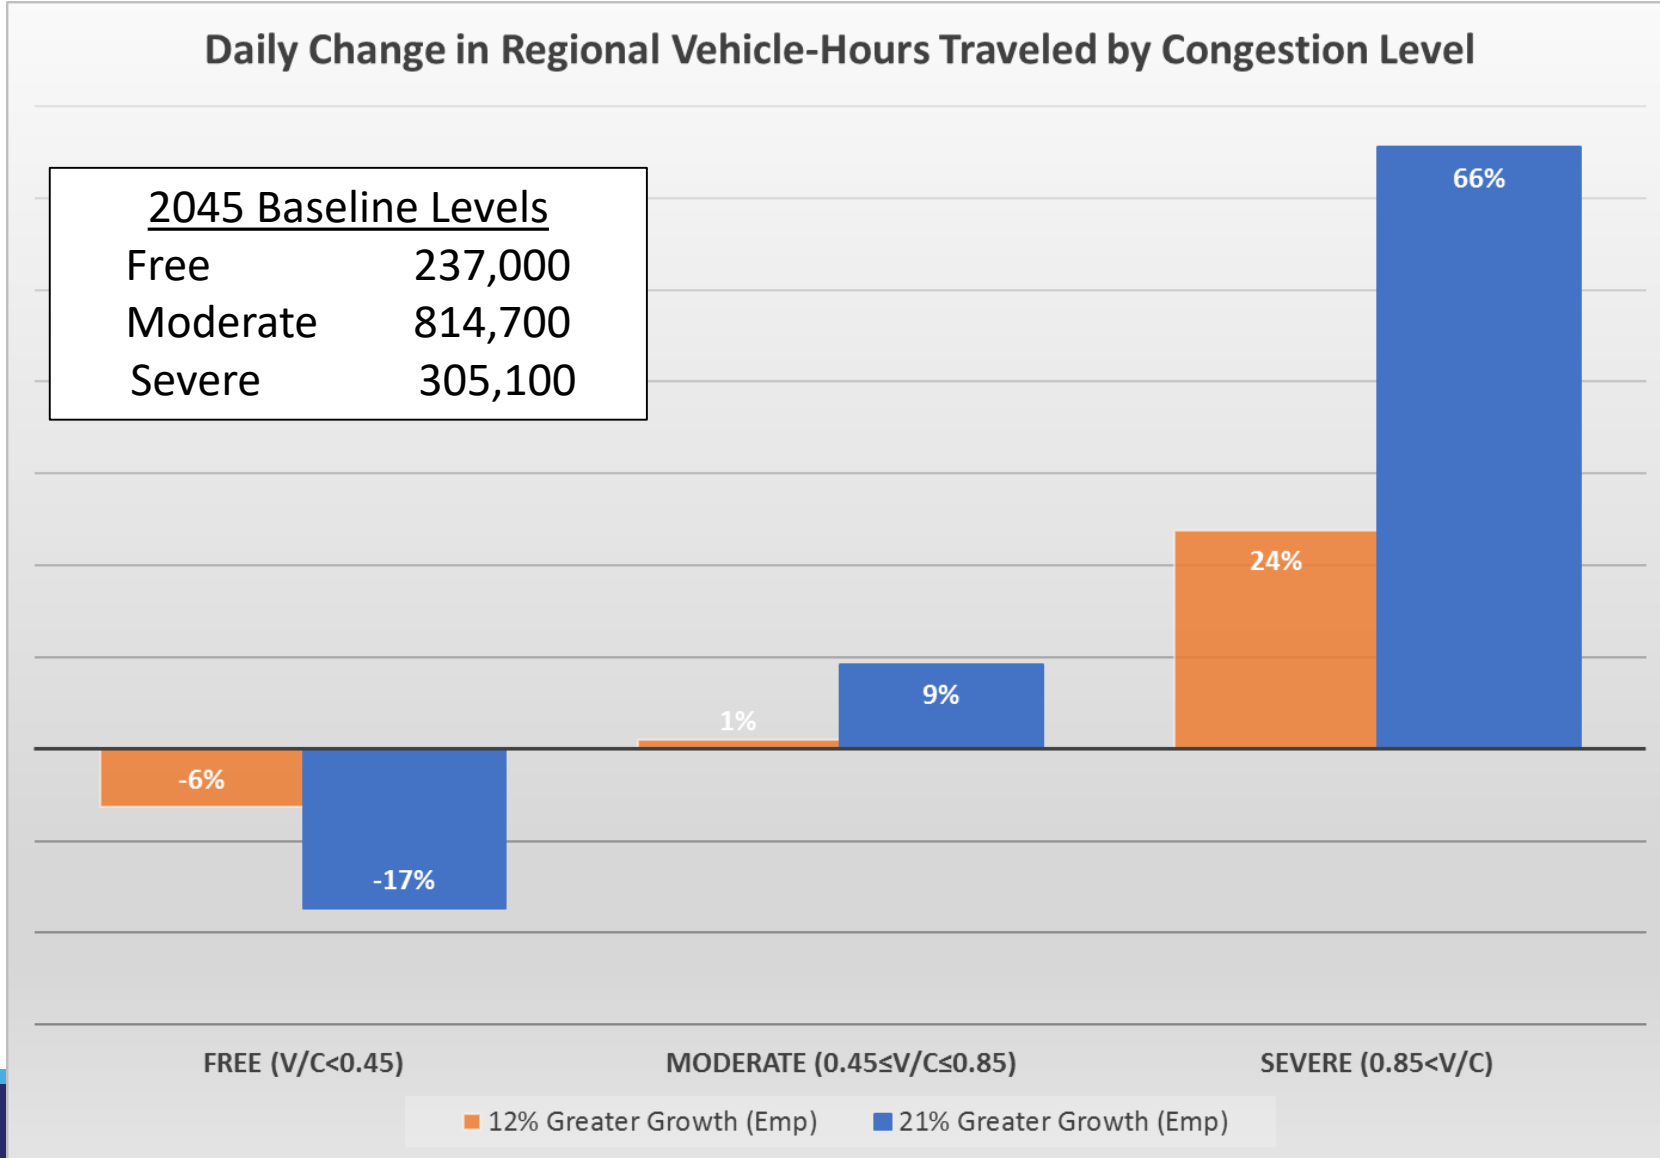

Potential Control Total Range for Greater Growth Scenario

Catalyst = Regional Growth from stimulus such as Amazon HQ2

Attachment 7B

Travel Demand Model Sensitivity Analysis

- Alternative control totals for greater employment growth

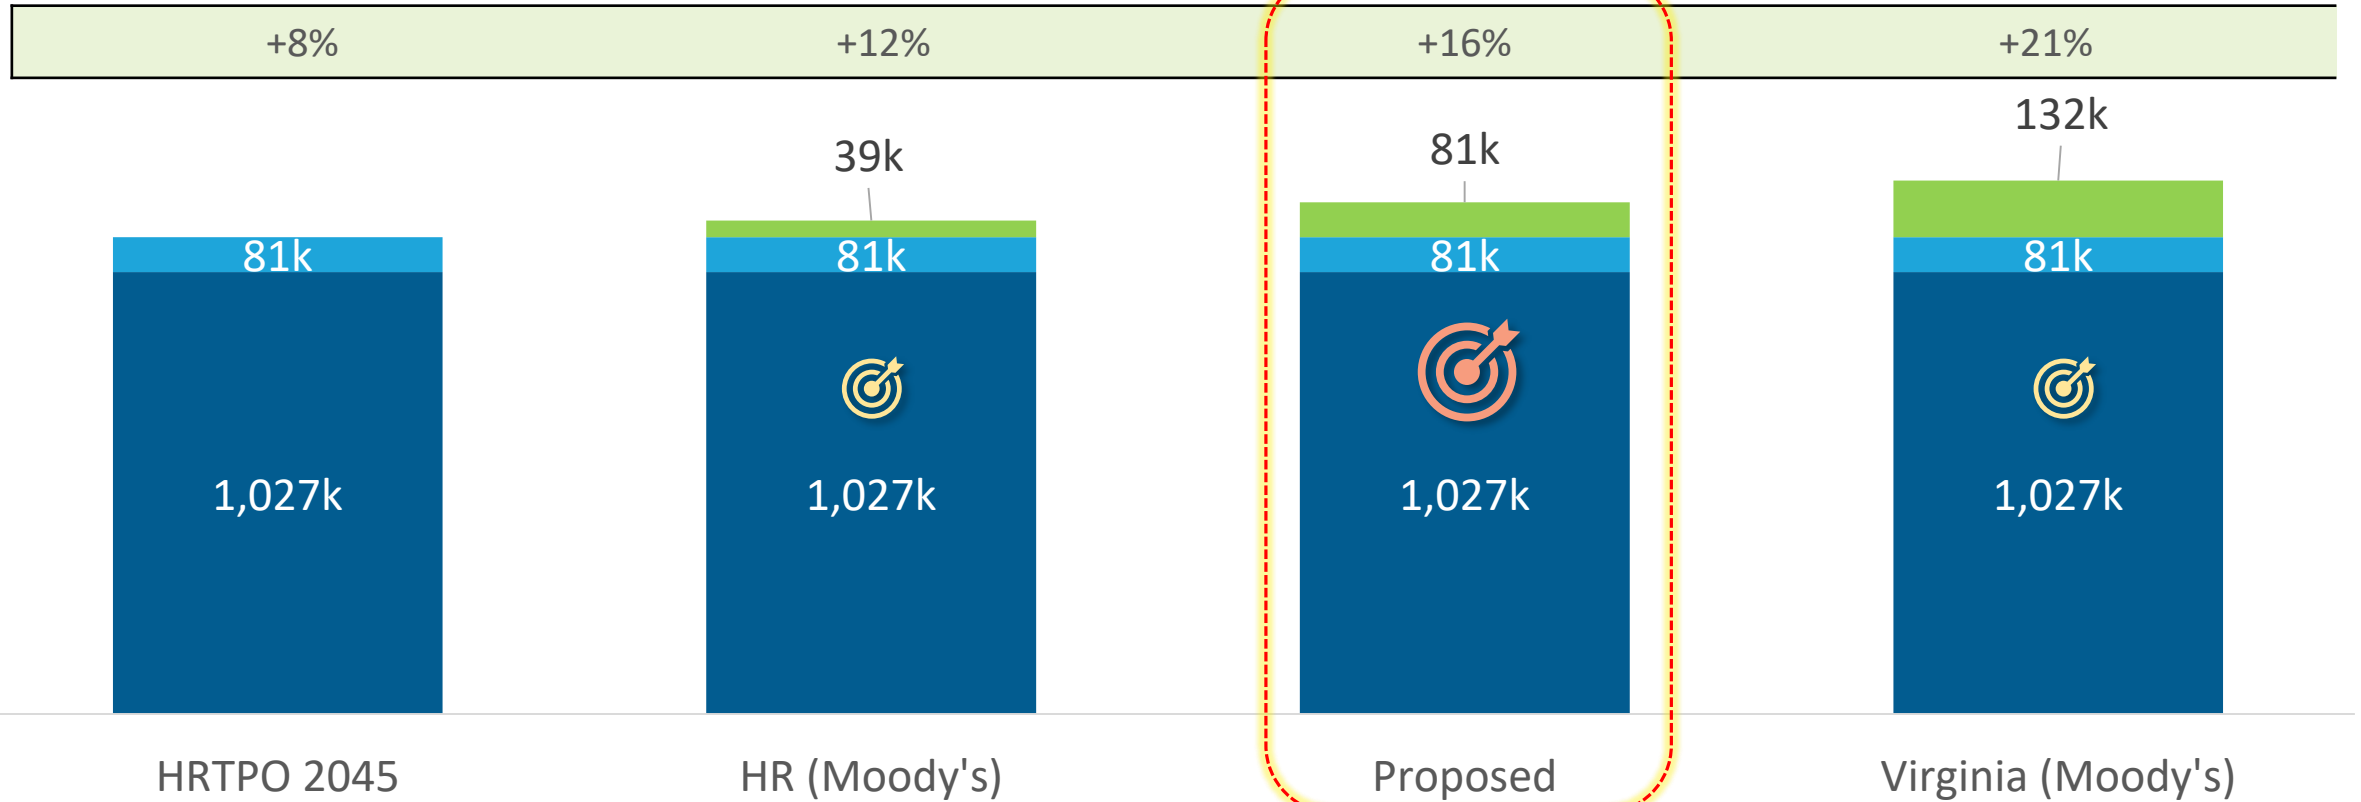

Regional Employment Added by 2045

% Increase 2015-2045:

■ HRTPO 2015 Employment

■ Baseline Jobs Added by 2045

■ Additional Scenario Jobs by 2045

Tested Control Total Range for Greater Growth Scenario

Proposed Greater Growth

Attachment 7B

Summary & Discussion

- The overall goal is to provide *differentiation* between the scenarios
 - Too little growth could dilute differences between scenarios
 - Too much growth with widespread, severe congestion could mask differences between scenarios (i.e. anything added to the network will also become congested)
- There is substantial congestion region-wide under the 2045 Baseline with the Existing plus Committed (E+C) Network
- Sensitivity testing in the travel model shows that:
 - 12% growth above 2015 has an effect relative to the baseline, but it is mild
 - 21% growth above 2015 shows a more significant increase in severe congestion
- 21% employment growth would imply that the region keeps pace with Virginia (and Northern Virginia) over the next 30 years – stretches the plausibility factor for 2045
- **Therefore, propose a middle ground of 16% growth above 2015**
 - Appears to be enough to move the needle without overloading the network
 - Believable story line
 - **Doubles** the 2045 baseline employment growth forecast (+ another 81k jobs)

ATTACHMENT 7C.1

Vision

“This study should establish a regional long-term vision that investigates 21st century transportation options that connect the Peninsula and the Southside across the Hampton Roads Harbor that enhance economic vitality and improve the quality of life in the region.” (Regional Connectors Study RFP)

Goals

Economic Vitality

Sustainability: Equity, Community & Environmental

Connectivity & Accessibility

Safety, Resiliency, & Innovation

Attachment 7C.1

Draft Objectives and Performance Measures

ECONOMIC VITALITY

| | | |
|--|------------------------------------|-----------------------------------|
| Support regional growth and productivity | Support efficient freight movement | Support accessibility for tourism |
|--|------------------------------------|-----------------------------------|

CONNECTIVITY & ACCESSIBILITY

| | | |
|--|---|--|
| Improve connectivity and reliability between the Peninsula and Southside | Improve connectivity and access for all | Reduce delay and improve travel efficiency |
|--|---|--|

SUSTAINABILITY: EQUITY, COMMUNITY & ENVIRONMENTAL

| | | |
|--|--|---|
| Improve the sustainability of communities through increased housing choice and reduced auto-dependency | Ensure that mobility benefits positively affect low income residents | Minimize the environmental impact of future growth and transportation |
|--|--|---|

SAFETY, RESILIENCY & INNOVATION

| | | |
|---|--|---|
| Improve safety through a more adaptive transportation network | Make investments that improve flood resiliency | Consider the impacts of technology on system demand and performance |
|---|--|---|

Performance Measures – See Handout
