RE: Regional Conformity Assessment

Dear Mr. Minor,

This letter provides the Regional Conformity Assessment (RCA) for the fiscally constrained Hampton Roads Amended 2045 Long-Range Transportation Plan and Fiscal Year 2024-2027 Transportation Improvement Program (TIP), which was approved on November 21, 2024 by the Board of the Hampton Roads Transportation Planning Organization (HRTPO). An FHWA/FTA finding of conformity is requested at your earliest convenience.

This RCA was prepared following Environmental Protection Agency (EPA) conformity guidance for areas affected by the South Coast II court decision.¹ For the Hampton Roads region, the applicable conformity criteria following EPA South Coast II guidance are consultation and fiscal constraint, which are met for the LRTP and TIP as summarized below.² Additional detail is provided in the attachment.

Consultation was conducted in compliance with the Virginia transportation conformity regulation or “conformity SIP” (9 VAC 5-151),³ which implements and is consistent with the federal transportation conformity rule (40 CFR Parts 51 and 93),⁴ and with HRTPO Inter-Agency Consultation for Conformity (IACC) Procedures that were established pursuant to the federal and state conformity regulations.⁵ Public consultation was conducted consistent

¹ “Transportation Conformity Guidance for the South Coast II Court Decision”, EPA-420-B-18-050, November 2018, available at: www.epa.gov/state-and-local-transportation/policy-and-technical-guidance-state-and-local-transportation

² The criteria for South Coast II orphan areas as presented in Section 2.4 of EPA’s guidance include the latest planning assumptions (93.110), consultation (93.112), timely implementation of transportation control measures (93.113), and fiscal constraint (93.108). Latest planning assumptions apply generally for modeling inputs as well as assumptions about transportation control measures (TCMs) if any are included in an approved and applicable SIP. As orphan areas (such as Hampton Roads) as defined in the South Coast II decision and per EPA guidance issued in November 2018 do not require regional emission analyses, and the 2007 state implementation (air quality) plan (SIP) for Hampton Roads did not include TCMs, the criteria for the use of latest planning assumptions and timely implementation of TCMs are not applicable for this region.

with planning rule requirements in 23 CFR 450 as well as the HRTPO Public Participation Plan.⁶ More specifically:

- Inter-agency consultation requirements were met with the inclusion of how the applicable conformity criteria (fiscal constraint and consultation under South Coast II) were met in each of the agenda items (attached) for the proposed amendments in the agenda for the October 2, 2024 Transportation Technical Advisory Committee (TTAC), the November 6, 2024 TTAC, and the November 21, 2024 HRTPO Board meeting. Email notices for these meetings were provided to all parties specified in HRTPO IACC Procedures, including all HRTPO TTAC members as well as representatives of EPA, the Virginia Department of Environmental Quality (VDEQ) and others.⁷
- Public consultation was conducted September 26, 2024 through October 10, 2024, October 30, 2024 through November 13, 2024, and November 6, 2024 through November 20, 2024 with public notices posted on the HRTPO website copies of which are included in the attachment.
- No comments were received in either public review or inter-agency consultation for conformity.

For fiscal constraint, transportation conformity requirements in 40 CFR 93.108 require that transportation plans and TIPs be fiscally constrained consistent with US DOT metropolitan planning regulations at 23 CFR part 450. Consistent with the programmatic approach for documenting fiscal constraint for amendments as specified in Section 5.3.2 of the HRTPO IACC Procedures, the applicable fiscal constraint criteria for the proposed amendments are met as:

- The proposed amendments are fiscally constrained and therefore fiscal constraint for the existing plan and program may reasonably be expected to be unaffected by the change(s),
- The existing plan⁸ and program⁹ are fiscally constrained per 40 CFR 93.108, and
- Revenue sources for the existing plan and program have not been lost or significantly reduced per 23 CFR 450.324(f)(11)(viii) and 450.326(l).

⁶ See: <https://www.hrtpo.org/474/Public-Participation-Plan>

⁷ Per section 4.5 on the HRTPO IACC Procedures (2023), “The requisite parties for IACC include the MPO, VDOT, Virginia Department of Rail and Public Transportation (VDRPT), FHWA, Federal Transit Administration (FTA), Lead (Air Quality) Planning Organization (LPO), VDEQ and EPA. The LPO for Hampton Roads is the Hampton Roads Air Quality Committee (HRAQC), who by these procedures may be represented in IACC by the representative(s) for VDEQ.”

⁸ Documentation of fiscal constraint for the LRTP is provided in:

As all applicable conformity criteria have been met, a finding of conformity for Hampton Roads is supported.

Please let us know if you have any questions or comments on the RCA.

PUBLIC NOTICE: HRTPO FY 2024-2027 TIP: Inter-Agency Conformity Consultation for Proposed Amendments

The Hampton Roads Transportation Planning Organization (HRTPO), the metropolitan planning organization (MPO) for the Hampton Roads metropolitan planning area, is considering requests to amend the HRTPO FY 2024-2027 Transportation Improvement Program (TIP). The amendment process includes an opportunity for public review and comment. Per the [Procedures for Inter-Agency Consultation on Conformity \(IACC\) for Hampton Roads](#), this public notice, along with the agenda note from the October 2, 2024 Transportation Technical Advisory Committee (TTAC) meeting, serves as an opportunity to provide feedback. In addition, an email will be sent to IACC members and stakeholders for feedback.

After HRTPO Board approval, HRTPO staff will submit the streamlined conformity documentation to FHWA/FTA to initiate the federal review process.

The proposed TIP amendments, as well as the current TIP in its entirety, can be viewed via the links below.

[ARCHIVED] Public Notice: HRTPO FY 2024-2027 TIP Amendments November 2024

The Hampton Roads Transportation Planning Organization (HRTPO), the metropolitan planning organization (MPO) for the Hampton Roads metropolitan planning area, is considering requests to amend the HRTPO FY 2024-2027 Transportation Improvement Program (TIP). The amendment process includes an opportunity for public review and comment.

There are three types of TIP Amendment requests being proposed:

- Amendments for Exempt Conformity Projects
- Amendments for Non-Exempt Regionally Significant Conformity Assessment Projects
- Amendments for Non-Exempt Conformity projects for a Programmatic finding

Exempt Conformity Projects:

This type of proposed amendment is not subject to a regional conformity assessment finding; however, the amendment process includes an opportunity for public review and comment. The proposed TIP amendments can be viewed at the link below:

K. Amended 2045 Long-Range Transportation Plan (LRTP) and FY 2024-2027 Transportation Improvement Program (TIP) Regional Conformity Assessment (RCA) for Proposed Non-Exempt, Regionally Significant TIP Amendments

An RCA needs to be conducted for the Amended 2045 LRTP and the FY 2024-2027 TIP with regard to five proposed non-exempt, regionally significant TIP amendments. As part of the region's [Procedures for Inter-Agency Consultation for Conformity \(IACC\) for Hampton Roads](#) (approved by the HRTPO Board on April 20, 2023), conformity consultation on proposed non-exempt, regionally significant FY 2024-2027 TIP amendments can be conducted via email and/or a Transportation Technical Advisory Committee (TTAC) agenda item. HRTPO staff elected to conduct the consultation via email and as a TTAC agenda item. The consultation periods for the proposed regionally significant TIP amendments were September 26, 2024 through October 10, 2024 (items 5Ji, 5Jii, 5Jv, 5Jvi, and 5Jvii), October 30, 2024 through November 13, 2024 (items 5Jii, 5Jviii, and 5Jix), and November 6, 2024 through November 20, 2024 (item 5Jiv) as posted on the HRTPO website via public notices as required by the IACC Procedures. No comments were received.

The proposed non-exempt, regionally significant FY 2024-2027 TIP amendments are contained in the November 21, 2024 HRTPO Board Agenda as Items 5Ji, 5Jii, 5Jiii, 5Jiv, 5Jv, 5Jvi, 5Jvii, 5Jviii, and 5Jix.

As part of the IACC procedures, since this RCA is not for a full LRTP or TIP update, it can be documented via a letter to the Federal Highway Administration (FHWA) that clearly demonstrates the fiscal constraint of the amendments and the consultation activities, along with any comments received. Upon HRTPO Board approval, HRTPO staff will transmit the letter (attached) to FHWA to initiate the federal review and approval process by FHWA, in coordination with the Federal Transit Administration (FTA) and in consultation with the Environmental Protection Agency (EPA).

RECOMMENDED ACTION:

Approve the Regional Conformity Assessment and proposed finding of conformity for the Amended 2045 LRTP and FY 2024-2027 TIP.
