Attached is a request from the City of Poquoson to amend the Hampton Roads FY 2024-2027 Transportation Improvement Program (TIP) to delete UPC 115524, a Poquoson project.

The specifics of the request are described below:

- **UPC 115524 – Victory Boulevard Enhancements – Poquoson**
  - Delete project in the TIP after the removal of all allocations and obligations.

The FY 2024-2027 TIP sheet will be updated in detail regarding the removal of allocations and obligations, extracted and saved, and then the project will be deleted from the TIP.

RE: FY 2024 - 27 HRTPO TIP Amendment UPC 123056

Dear Mr. Crum,

The Virginia Department of Transportation (VDOT) requests a TIP Amendment from the Hampton Roads Transportation Planning Organization (HRTPO) to add UPC 123056, #SMART24 Independence Blvd/Pleasure House Rd Intersection, to the FY 2024-27 TIP. This project will convert the existing signalized intersection at Independence Blvd and Pleasure House Rd to a Continuous Green-T innovative intersection type. To mitigate access impacts, westbound through traffic from Pleasure House Road will be restricted and will be diverted to make a westbound right-turn and be provided with an area for a subsequent U-turn at the proposed median break approximately 650-feet to the north. The unsignalized full movement intersection of Independence Blvd/Tulip Dr will be reconfigured to a left-in/right-in/right-out intersection (i.e. no left out). RE: FY 2024 - 27 HRTPO TIP Amendment UPC 123177

Dear Mr. Crum,

The Virginia Department of Transportation (VDOT) requests a TIP Amendment from the Hampton Roads Transportation Planning Organization (HRTPO) add UPC 123177, #SMART24 Indian River Road/Thompkins Lane Intersection, to the FY 2024-27 TIP. This project will install a modified Restricted Crossing U-Turn (RCUT) at Indian River Road and Thompkins Lane/Ferry Point Road and a crosswalk and pedestrian signals at the eastern leg of the Indian River Rd/ Kemps River Road intersection. The existing signal at the intersection will be removed to accommodate the installation of the modified RCUT. Additionally, the traffic signal at Indian River Road and Kemps River Drive will be modified by adjusting signal phasing to accommodate the additional pedestrian phase and four bus stops near Thompkins Lane will be improved with HRT bus shelters, benches and trash cans. Although the project is not fiscally constrained within the TIP years, it is within the current FY 2025-2030 SYIP and all funding has been identified. Fiscal constraint of the project is demonstrated. To that end, we request UPC 123177 be added to the FY 2024-27 TIP including the following information:

- UPC 123177 – #SMART24 Indian River Road/Thompkins Lane Intersection
  - Non-Federal Oversight
  - Add FY Previous Obligations
    - No Previous Obligations
  - FY 24 - 27 Obligations:
    - PE (FY26) Federal – Other \$328,083

The Virginia Department of Transportation (VDOT) requests a TIP Amendment from the Hampton Roads Transportation Planning Organization (HRTPO) add UPC 123178, #SMART24 Clearfield Avenue (Cleaveland Street to VB Blvd), to the FY 2024-27 TIP. This project will construct 0.26 miles of two-way left-turn lanes and 1,320 feet of 5-foot sidewalk on Clearfield Avenue to Virginia Beach Boluevard. Additionally, the traffic signal at Clearfield Avenue/Virginia Beach Boulevard will be modified by relocating the signal in the Southwest quadrant to accommodate the widened section. The deficit of \$5,000,000, which is outside the FY 2025-2030 SYIP, will be local funds provided by Virginia Beach. Fiscal constraint of the project is demonstrated. To that end, we request UPC 12178 be added to the FY 2024-27 TIP including the following information:
