

AGENDA ITEM #10: NEW HRTPO TIP WEBSITE
Mike Kimbrel, HRTPO

In conjunction with the HRTPO FY 2012-2015 Transportation Improvement Program (TIP), approved by the HRTPO Board in June 2011, HRTPO staff launched a website (www.hrtpotip.org) to provide easier access to TIP data, as well as employ visualization techniques in the form of an interactive regional map. The TIP website was revised and updated in July 2014 in conjunction with HRTPO Board approval of the FY 2015-2018 TIP.

In an effort to significantly improve the TIP Website, HRTPO staff converted the interactive regional map to a different mapping platform and, with the assistance of a website design and development firm, developed a robust project information search tool.

Mr. Mike Kimbrel, Principal Transportation Engineer, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
