

AGENDA ITEM #6: 2045 LONG-RANGE TRANSPORTATION PLAN – DRAFT FISCALLY CONSTRAINED LIST OF PROJECTS

The development of the 2045 Long-Range Transportation Plan (LRTP) is in the final stages of a five-year planning process. Project Prioritization scores have been produced for the 250+ multimodal candidate transportation projects, evaluating projects based on Project Utility (project effectiveness), Economic Vitality (potential for economic gain), and Project Viability (project readiness and compatibility). The final Prioritization scores and report were approved by the HRTPO Board at its January 21, 2021 meeting.

The Prioritization scores, along with forecasted available transportation revenues, provide the framework for fiscal constraint. Working with the LRTP Subcommittee, a subcommittee of the Transportation Technical Advisory Committee (TTAC) comprised of regional stakeholders responsible for guiding the development of the LRTP, multiple virtual meetings were held to refine Fiscal Constraint Guiding Principles and develop a draft fiscally constrained list of projects for the 2045 LRTP.

The draft 2045 LRTP fiscally constrained list of projects was presented to TTAC at its February 3, 2021 meeting. In addition to TTAC's review of the draft list, HRTPO staff will coordinate with other HRTPO advisory committees including the FTAC for their review and feedback. A 30-day public review and comment opportunity is scheduled to begin on February 18th. HRTPO staff will be seeking approval of the final list from the HRTPO Board in the March/April timeframe.

Ms. Dale Stith, HRTPO, will brief the FTAC on this item.
