

AGENDA ITEM #7: SMART SCALE ROUND 4: UPDATE
Todd Halacy, VDOT

SMART SCALE is about investing limited tax dollars in the right projects that meet the most critical transportation needs in Virginia. In accordance with the ***SMART SCALE Policy Guide***, the Office of Intermodal Planning and Investment (OIP), the Virginia Department of Transportation (VDOT), and the Virginia Department of Rail and Public Transportation (DRPT) have completed evaluation of the SMART SCALE applications and have provided recommended funding scenarios.

The recommended scenario lists projects recommended for funding in each VDOT construction district based on Benefit Score/SMART SCALE Cost ranks. The Commonwealth Transportation Board (CTB) will consider the Recommended Scenario over the next few months and may make changes to the projects that will ultimately be funded.

For more information on SMART SCALE, including detailed scoring information for each of the projects evaluated this year, visit the SMART SCALE website at vasmartscale.org/.

Mr. Todd Halacy, VDOT ADA/Planning & Investment Manager, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
