

**AGENDA ITEM #10: REGIONAL PERFORMANCE MEASURES – SYSTEM
PERFORMANCE REPORT: DRAFT
*Keith Nichols, HRTPO***

The Moving Ahead for Progress in the 21st Century (MAP-21) surface transportation legislation established a performance- and outcome-based program. As part of this program, MAP-21 and the current Fixing America's Surface Transportation (FAST) Act legislation require that States and Metropolitan Planning Organizations (MPOs) prepare and use a set of federally-established performance measures that are tied to national performance goals. Each MPO must set regional targets in the areas of roadway safety, Transit Asset Management, pavement condition, bridge condition, roadway performance, and freight. The HRTPO Board approved initial regional targets in each of these areas throughout 2018.

The HRTPO will annually prepare a System Performance Report on these regional performance measures and targets. This report (Enclosure 10) includes a description of the methodology used to calculate each measure, historical data trends for each of the areas, information on statewide targets, a description of the targets that have been established by the HRTPO, and the progress being made towards meeting the established targets.

Mr. Keith Nichols, Principal Transportation Engineer, will brief the TTAC on this item.

Enclosure 10

RECOMMENDED ACTION:

Review the draft report and submit comments to Keith Nichols (knichols@hrtpo.org) by Friday, March 22, 2019.
