

AGENDA ITEM #11: 2045 LRTP: TRANSPORTATION ANALYSIS ZONES (TAZ) BASE YEAR (2015) UPDATE
Leonardo Pineda, HRTPO

As part of the 2045 Long-Range Transportation Plan development process, HRTPO staff is updating the base year socioeconomic data for the regional travel demand model from 2009 to 2015. Draft 2015 Population and Total Employment data was presented to the LRTP Subcommittee at its February 7, 2018 meeting, with comments due by February 28, 2018.

The next step in the development of 2015 socioeconomic data is to distribute the Total Employment values into categories needed for the regional travel demand model (Retail, Office, Industrial, and Other) and calculate other model inputs (Household, Vehicles) based off Population totals. Incorporating received stakeholder input, HRTPO staff has calculated the remaining draft socioeconomic data for each locality.

Mr. Leonardo Pineda, HRTPO Transportation Planner II, will brief the TTAC on this item.

RECOMMENDED ACTION:

Review Draft 2015 base year data and submit comments to Leo Pineda at lpineda@hrtpo.org by March 30, 2018.
