

AGENDA ITEM #6: HRTPO PRIORITIZATION PROCESS: DATA COLLECTION FOR DRAFT 2040 LRTP CANDIDATE PROJECTS

The [Draft 2040 LRTP Candidate Projects](#) list is a compilation of highway, transit, and active transportation projects/studies. This list, developed in coordination with the LRTP Subcommittee, includes projects/studies from the 2034 LRTP, projects submitted by localities and transit agencies, and public survey suggestions received via the 2040 LRTP Visioning Survey. The next step in the development of the 2040 LRTP is to collect data on these candidate projects to input into the Project Prioritization Tool.

HRTPO staff has initiated the data collection process by populating projects with existing data from the evaluation of 2034 candidate projects. HRTPO staff will be providing a spreadsheet electronically to LRTP subcommittee members to:

1. Review project data input by HRTPO staff, noting any changes
2. Input missing data

Ms. Theresa Jones, Transportation Engineer, will brief the Subcommittee on this item.

RECOMMENDED ACTION:

1. Review the Draft 2040 LRTP Candidate Projects List
2. Submit data for Draft 2040 LRTP Candidate Projects using the spreadsheet provided by HRTPO Staff
