

AGENDA ITEM #8: HAMPTON BOULEVARD CORRIDOR STUDY: FINAL
Rob Case, HRTPO

In response to a request from the City of Norfolk, HRTPO staff analyzed the study corridor and provided options for reducing the number of trucks, improving safety, mitigating trains blocking roads, and reducing flooding. Staff presented the study to TTAC in November and made it available for public review and comment. Authors Robert Case and Keith Nichols received comments from the City of Norfolk, FHWA, and the Port and addressed those comments.

Dr. Robert Case, HRTPO Chief Transportation Engineer, will be available to answer questions on this item.

RECOMMENDED ACTION:

Recommend HRTPO Board approval of the final report.
