

AGENDA ITEM #11: HRTPO PRIORITIZATION PROCESS: 2040 LRTP CANDIDATE PROJECTS – STATUS UPDATE

SUBJECT:

Ongoing data collection and public involvement efforts on the 2040 LRTP candidate projects

BACKGROUND:

There are over 200 projects in the 2040 LRTP candidate projects list. These projects include highway, transit, rail, ferry, and active transportation projects. This list was developed using the 2034 LRTP projects as a base, and was then expanded to include public input received via the 2040 LRTP Visioning Survey as well as locality input received through work with the LRTP Subcommittee.

On April 8, 2014, subsequent to the LRTP Subcommittee meeting, a formal request was made to all the localities to provide data on each of the candidate projects in their respective jurisdictions. This data, once received, will be used to evaluate the candidate projects using the HRTPO Project Prioritization Tool.

Concurrent public outreach was also conducted on the 2040 LRTP Candidate Projects. Meetings were held on April 23, 2014 in Poquoson and on April 29, 2014 at the Regional Building. An online survey is being conducted from April 4, 2014 through May 7, 2014.

Dr. Arkopal K. Goswami, Principal Transportation Engineer, will provide the TTAC with a status report on this item.

RECOMMENDED ACTION:

LRTP Subcommittee members have been requested to provide necessary data on the candidate projects to 2040LRTP@hrtpo.org by COB May 2, 2014.
