

**AGENDA ITEM #14: STATEWIDE PARK & RIDE INVESTMENT STRATEGY PRIORITY LIST:
VDOT**

SUBJECT:

An update on the Statewide Park & Ride Lot Investment Strategies study and preliminary list of finding and recommendations for the park and ride lots in the Hampton Roads district.

BACKGROUND:

The Virginia Department of Transportation recently completed a Statewide Park and Ride Study with a mission to develop, deliver, operate, and maintain a system of Park and Ride facilities that support the Commonwealth's initiative to reduce congestion and vehicle miles traveled and support the long-term vision of a multi-modal transportation system. VDOT has now commenced a Park & Ride Lot Investment Strategies study to evaluate and prioritize recommendations for new, expanded and enhanced Park & Ride (P&R) lots throughout Virginia and is seeking stakeholder input. VDOT has developed a preliminary list of recommendations for the Hampton Roads district. More Park and Ride information may be viewed at: http://www.virginiadot.org/travel/parkride/vdot_wants_your_input!.asp.

Mr. Carl Jackson, VDOT Transportation Planning Specialist for the Hampton Roads District, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
