

AGENDA ITEM #12: REGIONAL PRIORITY PROJECTS: ROUND 2
Camelia Ravanbakht, HRTPO

During the HRTPO Board meeting of May 18, 2017, the City of Virginia Beach requested guidance from the Board (Attachment A) regarding the possibility of adding the I-264/Independence Boulevard interchange to the list of Regional Priority Projects.

Following significant discussion, the Board voted unanimously to direct HRTPO staff to work with the TTAC to review and identify projects in the 2040 Long-Range Transportation Plan (LRTP) that could be considered as Round 2 Hampton Roads Regional Priority Projects. Included in the Board action was that Round 1 projects (Attachment B) will not be impacted in terms of priority or funding by the work done for Round 2.

TTAC members will be asked to review their 2040 LRTP projects and submit candidates for possible inclusion in Round 2 Hampton Roads Regional Priority Projects. HRTPO staff will evaluate the projects and convene a meeting of the LRTP Subcommittee to develop a recommended list of Round 2 projects for consideration by the TTAC and HRTPO Board.

Dr. Camelia Ravanbakht, HRTPO Deputy Executive Director, will brief the TTAC on this item.

Attachment A – City of Virginia Beach Letter

Attachment B – Maps of Hampton Roads Regional Priority Projects (Round 1)

RECOMMENDED ACTION:

Review the 2040 LRTP projects and submit candidates for Round 2 Hampton Roads Regional Priority Projects to Dale Stith (dstith@hrtpo.org) by COB Wednesday, June 21, 2017.
