

**F. 2040 LONG-RANGE TRANSPORTATION PLAN: FUNDING PLAN, PROJECT INFORMATION GUIDE, AND PLAN PERFORMANCE REPORTS**

As part of the compendium of reports that comprise the Hampton Roads 2040 Long-Range Transportation Plan (LRTP), HRTPO staff has produced additional products to aid in the review of the Draft Fiscally-Constrained List of Projects:

- The 2040 Long-Range Transportation Plan: Funding Plan report documents the fiscal-constraint process, specifically identifying the transportation revenues that will be reasonably available to help preserve our transportation system and support additional investments over the next twenty years in order to keep people and goods moving as efficiently as possible.
- The 2040 Long-Range Transportation Plan: Project Information Guide provides summarized information for each project on the Draft list. This report is designed to serve as a guiding tool to help monitor the implementation of the 2040 LRTP, as well as serve as an information guide for public use.
- The 2040 LRTP Plan Performance report which summarizes forecasted impacts from the regional travel demand model as well as the Title VI/Environmental Justice Impact Scores for each of the draft projects.

Enclosure 17-F1: *2040 LRTP Funding Plan Report*

Enclosure 17-F2: *2040 LRTP Project Information Guide*

Enclosure 17-F3: *2040 LRTP Plan Performance Report*

**RECOMMENDED ACTION:**

Approve the three reports listed above.
