

**AGENDA ITEM #20: VIRGINIA'S 2025 TRANSPORTATION NEEDS ASSESSMENT: OIPI CONSULTANT**

The Office of Intermodal Planning and Investment (OIPI) is preparing a high-level 2025 Transportation Needs Assessment to be used as a screen for candidate HB2 projects.

On April 15, 2015, Ms. Lorna Parkins of Michael Baker International, consultant for OIPI, briefed the LRTP Subcommittee on her work. After the meeting, she met with HRPDC staff, Hampton Roads Economic Development Alliance staff, and HRTPO staff to obtain relevant data sets from recent work by those organizations. On May 6, 2015, she briefed the TTAC on a draft regional profile for Hampton Roads, and met with interested TTAC members and HRTPO staff after the TTAC meeting.

The VTrans Multimodal Transportation Plan (VMTP) development team will conduct a one-hour workshop immediately following the TTAC meeting on July 1, 2015. The workshop is an opportunity to provide input on the Regional Network needs for the Hampton Roads region. Everyone is invited to attend.

Ms. Parkins will brief the TTAC on this item.

**Recommended Action:**

Provide feedback to Ms. Parkins and participate in the workshop following the TTAC meeting.
