

AGENDA ITEM #16: MAP 21/FAST ACT PERFORMANCE MEASURES AND TARGETS
Keith Nichols and Dale Stith, HRTPO

The MAP-21 federal surface transportation legislation package established that States and Metropolitan Planning Organizations will be required to prepare and use a set of federally-established performance measures and set targets. These measures and targets will be required in the following areas:

- Safety
- Pavement Condition
- Bridge Condition
- Roadway Performance
- Freight
- Transit Asset Management
- CMAQ Measures

The HRTPO Board approved initial regional safety performance targets at their February 15, 2018 meeting. Targets for Transit Asset Management will need to be established before the October 1, 2018 deadline and targets for the other areas will need to be approved prior to mid-November 2018.

In addition, federal legislation requires that the regional long-range transportation planning process:

- Shall include a description of the federally required performance measures and targets used in assessing the performance of the transportation system.
- Shall include a system performance report evaluating the condition and performance of the transportation system with respect to the targets including progress achieved by the MPO towards meeting the performance targets.
- MPOs that elect to conduct scenario planning shall describe how the preferred scenario has improved performance of the system.

This information shall be included in the regional LRTP for the roadway safety performance measures for any updates or amendments that occur after May 27, 2018, and for the other areas after May 20, 2019. HRTPO staff has updated the *Hampton Roads 2040 Long-Range Transportation Plan: Plan Performance* report (one of the compendium of reports documenting the 2040 LRTP planning process) based on these requirements.

Mr. Keith Nichols, Principal Transportation Engineer, and Ms. Dale Stith, Principal Transportation Planner, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
