

## **G. Drive-Thru Queue Stacking Requirements in Virginia Cities: Final**

Having dealt recently with queues at some fast-food restaurants spilling back into adjacent roadways and understanding that some cities vary their stacking requirements by commercial use (e.g. fast-food, drug store, bank, etc.), the City of Virginia Beach asked HRTPO staff to research and document other cities' queue stacking requirements by commercial use.

Localities evaluating the appropriateness of their stacking requirements can use this research to compare their stacking requirements to those of other cities.

The draft report was made available for public review and comment from June 2, 2021 through June 16, 2021. No comments were received. The Transportation Technical Advisory Committee (TTAC) has recommended approval of the final report.

Enclosure 16G: *Drive-Thru Queue Stacking Requirements in Virginia Cities: Final*

### **RECOMMENDED ACTION:**

Approve the final report.
