

AGENDA ITEM #9: 2045 LRTP: HAMPTON ROADS 2045 SOCIOECONOMIC DATA BY TRANSPORTATION ANALYSIS ZONE – ALLOCATION PROCESS
Leonardo Pineda, HRTPO

In July 2017, the HRTPO Board approved the 2045 Socioeconomic Forecast. With the recent HRTPO Board approval of updated base year (2015) socioeconomic data and Transportation Analysis Zones (TAZ) boundaries at its July 2018 meeting, the next step in the LRTP planning process is for localities to allocate the 2045 Socioeconomic Control Totals to their respective TAZs.

Electronic spreadsheets for each locality showing current base year (2015) TAZ data along with the previous 2040 TAZ data (to use for reference), will be made available via the HRTPO website (note that not all TAZs will have 2040 data due to the recent boundary update). Each locality will have the responsibility of filling in Households, Total Employment, Retail Employment, Industrial, Office, and Other Non-Retail Employment data for 2045, using the newly approved TAZ boundaries. HRTPO staff will be available to provide assistance as needed. A copy of the HRTPO Board-approved 2045 Socioeconomic Control Totals is attached (Attachment 9). The 2045 TAZ Allocation Excel Spreadsheet and the Hampton Roads 2015 TAZ Shapefile will be made available to TTAC members on the HRTPO website after the meeting on August 1, 2018.

Mr. Leonardo Pineda II, HRTPO Transportation Planner II, will brief the TTAC on this item.

Attachment 9

RECOMMENDED ACTION:

Allocate the 2045 socioeconomic data to TAZs and return the completed electronic Excel spreadsheet file to Leo Pineda, lpineda@hrtpo.org, by COB, Wednesday, August 29, 2018.
