

AGENDA ITEM #16: CONNECTED VEHICLES AND AUTOMATED VEHICLES

President Barack Obama gave a speech in July 2014 at the Federal Turner-Fairbank Highway Research Center in Virginia on the importance of Vehicle-to-Vehicle (V2V) communications and Vehicle-to-Infrastructure innovation. The Virginia Center for Transportation Innovation and Research (VCTIR), in cooperation with the Virginia Tech Transportation Institute, is conducting research on connected vehicles and automated vehicles.

Ms. Cathy McGhee, Associate Director for Safety, Operations and Traffic Engineering at VCTIR, will brief the TTAC on VCTIR's work in this area.
