

AGENDA ITEM #21: MAP-21/FAST ACT PERFORMANCE MEASURES AND TARGETS
Keith Nichols, HRTPO

Recent federal surface transportation legislation established that States and Metropolitan Planning Organizations will be required to prepare and use a set of federally-established performance measures and set targets. These measures and targets will be required in the following areas:

- 1) Safety
- 2) Pavement Condition
- 3) Bridge Condition
- 4) Roadway Performance
- 5) Freight
- 6) CMAQ Measures

Each MPO will need to establish and approve initial safety performance targets by February 27, 2018. Targets for the other areas will need to be approved by mid-November 2018.

HRTPO staff will work in cooperation with the Transportation Technical Advisory Committee to produce performance measures and targets for each of these areas as required by the federal legislation.

Mr. Keith Nichols, HRTPO Principal Transportation Engineer, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
