RE: Ft. Eustis Blvd/I-64 Interchange

Name: Bill Napolitano
Date: September 23, 2014
Subject: Ft. Eustis Blvd/I-64 Interchange

Public Comment Input (Via E-Mail)

Please accept my comments/suggestions on the Ft Eustis Blvd/I-64 interchange.

A few months ago I asked if the ongoing Ft Eustis Blvd bridge repair over the railroad tracks would incorporate widening the bridge westbound to accommodate an acceleration lane from the I-64 East off-ramp. Both the Newport News and the VDOT planners said "no". Therefore, the opportunity to eliminate a dangerous merge onto Ft Eustis Blvd that causes traffic on both that surface NN road and backs up all the way onto I-64 was missed. Perhaps both entities can work together with HRTPO to include planning and funding for this needed fix to be incorporated into any future NN roadwork or I-64 widening.
