

ITEM #15: HAMPTON ROADS BRIDGE TUNNEL EXPANSION PROJECT: UPDATE
James Utterback, VDOT

The I-64 Hampton Roads Bridge Tunnel Expansion Project is currently under construction. The project will add capacity to a 10-mile section of I-64 from east of Settlers Landing Road in Hampton to the east of I-564 in Norfolk. A significant component of the project is the 3.5-mile harbor crossing which includes replacing all four of the existing marine trestle bridges, expanding both North and South Islands, and constructing two new 8,000' bored tunnels. The Hampton Roads Bridge Tunnel Expansion Project is primarily funded with Hampton Roads Trust Fund (HRTF) monies managed by the Hampton Roads Transportation Accountability Commission (HRTAC).

Mr. James Utterback, HRBT Expansion Project Director, will brief the HRTPO Board on construction progress on this item.
