

AGENDA ITEM #9: VOLUMES, SPEEDS, AND CONGESTION ON MAJOR ROADWAYS IN HAMPTON ROADS: DRAFT
Keith Nichols, HRTPO

As part of the Congestion Management Process (CMP), HRTPO staff has annually prepared a report detailing average weekday traffic volumes for major roadways in Hampton Roads. Since 2012, this document has included an analysis of roadway speed data collected by INRIX, and an analysis of peak period roadway congestion levels.

The draft version of the Volumes, Speeds, and Congestion on Major Roadways in Hampton Roads report has been made available for public review and comment from October 26, 2016 through November 23, 2016. HRTPO staff intends to request approval of the final report at the December TTAC meeting.

Mr. Keith Nichols, HRTPO Principal Transportation Engineer, will brief the TTAC on this item.

Enclosure 9: Volumes, Speeds, and Congestion on Major Roadways in Hampton Roads:
Draft

RECOMMENDED ACTION:

Review the draft report during the public comment period and submit comments to Keith Nichols (knichols@hrtpo.org) by COB Wednesday, November 23, 2016.
