

ITEM #16: HRTPO DRAFT REPORTS FOR PUBLIC REVIEW

A. PROCEDURES FOR CLOSURES AT RIVER CROSSINGS

In response to the traffic disruptions resulting from the simultaneous closings of the Hampton Roads Bridge-Tunnel (HRBT) and James River Bridge (JRB) in September 2012, the HRTPO staff proposed to lead the operators of key river crossings in Hampton Roads, via the Hampton Roads Transportation Operations (HRTO) subcommittee of TTAC, in the preparation of a regional procedures document for planned closures at these crossings. The draft document is under public review through November 20, 2013.
