In accordance with Federal regulations (23 CFR 450.336), metropolitan planning areas (MPAs) must certify at least every four years, concurrent with the submittal of the entire proposed Transportation Improvement Program (TIP) as part of the Statewide Transportation Improvement Program, that the metropolitan transportation planning and programming process is being carried out in accordance with applicable requirements. These requirements include highway, transit, and air-quality regulations and laws, as well as Title VI of the Civil Rights Act of 1964 and related nondiscrimination authorities. The questions within this document serve as a guide to issues considered during the self-certification process.

**Hampton Roads Transportation Planning Organization**

The Hampton Roads Transportation Planning Organization (HRTPO) is the metropolitan planning organization (MPO) for the Hampton Roads area. As such, it is a federally mandated transportation policy board comprised of representatives from local, state, and federal governments, transit agencies, and other stakeholders and is responsible for transportation planning and programming for the Hampton Roads MPA. Any highway or transit project or program to be constructed or conducted within the MPA and to be paid for with Federal funds, must receive approval by the HRTPO before any Federal funds can be expended. In addition, any highway or transit project deemed to be regionally-significant, regardless of the source(s) of funding, must receive HRTPO approval to proceed. The Hampton Roads MPA includes the cities of Chesapeake, Hampton, Newport News, Norfolk, Poquoson, Portsmouth, Suffolk, Virginia Beach, and Williamsburg; the counties of Isle of Wight, James City, and York; a portion of the City of Franklin, and portions of the counties of Gloucester and Southampton.
The Hampton Roads Transportation Planning Organization (HRTPO) Self-Certification Procedural Guide was developed to serve as a reference for staff, reviewing agencies, and the public to assure that metropolitan transportation planning and programming processes are being carried out in accordance with applicable requirements.

This Guide is organized as follows:

- **Self-Certification Questions** – This section includes the questions used to ascertain that the HRTPO transportation planning and programming processes comply with pertinent laws and regulations.

- **Appendix A** – Enumerates and defines applicable requirements. Items 1 and 2 of this section list and briefly explain highway, transit, and air-quality regulations and laws. Items 3 through 10 provide information about Title VI of the Civil Rights Act of 1964 and related nondiscrimination statutes.

- **Appendix B** – Includes the HRTPO Self-Certification Form. When the Self-Certification Form is submitted, it will be accompanied by an Accomplishments Report highlighting HRTPO initiatives and accomplishments achieved through the regional transportation planning and programming processes since the previous self-certification.

The self-certification process takes place at least every four years, concurrent with the submittal of the entire proposed HRTPO Transportation Improvement Program (TIP). The FY 2018-2021 TIP is scheduled for approval by the HRTPO Board on April 20, 2017.

The Self-Certification Form and Accomplishments Report will be included in the appendix of the approved FY 2018-2021 TIP.
