February 5, 2020

HRTPO Transportation Improvement Program (TIP):

- Multi-year program for the implementation of surface transportation projects within the Hampton Roads metropolitan planning area (MPA)
- Developed by the HRTPO in cooperation with state transportation agencies and local public transportation operators
- Contains all federally-funded and/or regionally-significant projects that require an action by the Federal Highway Administration (FHWA) or the Federal Transit Administration (FTA)

Before any federally-funded or regionally-significant surface transportation project can be built in the Hampton Roads MPA, it must be included in a current TIP that has been approved by the HRTPO Board.

The basic steps for development of the TIP may be summarized as follows:

- The Virginia Department of Transportation (VDOT), Virginia Department of Rail and Public Transportation (DRPT), HRTPO, and local public transit agencies coordinate to develop the draft TIP project list, drawing projects from the approved Long-Range Transportation Plan (LRTP)
- The draft TIP project list is reviewed by staffs of the HRTPO, VDOT, transit agencies, and localities
- The draft TIP document is produced and undergoes a 30-day public review/comment period
- The final TIP document is approved by the HRTPO Board
- The final TIP document is approved by the Governor and included without change, directly or by reference, in the Statewide Transportation Improvement Program (STIP).

- The Draft FY 2021-2024 TIP was posted on the HRTPO website under Public Notices on February 3, 2020.
- The Draft FY 2021-2024 TIP document to be reviewed for:
 - Projects that are not in financial closure or final vouchered and are not included in the TIP
 - Projects that have allocations and/or planned obligations in FY 2021-24 that are not included in the TIP
 - Projects that are listed in the TIP that are closed or completed
 - Accuracy of all project and TIP document data.
