

AGENDA ITEM #12: I-64 PENINSULA SHOULDER USAGE EVALUATION: VDOT

SUBJECT:

A briefing on code, policy, and engineering facts related to using shoulders as through lanes on interstate highways.

BACKGROUND:

The Virginia Department of Transportation (VDOT) Hampton Roads District has collected information on potential short-term strategies to relieve congestion along the I-64 Corridor between Jefferson Avenue and Fort Eustis Boulevard (Route 105), including existing geometric conditions, traffic volumes, crash data, as well as geometric and regulatory constraints.

Mr. Eric Stringfield, VDOT Transportation Planning and Land Use Director, will brief the TTAC on this item.

RECOMMENDED ACTION:

For discussion and informational purposes.
