

**AGENDA ITEM #11: VOLUMES, SPEEDS, AND CONGESTION ON MAJOR ROADWAYS IN HAMPTON ROADS**

**SUBJECT:**

The *Volumes, Speeds, and Congestion on Major Roadways in Hampton Roads* draft report is available for review and comment.

**BACKGROUND:**

As part of the Congestion Management Process (CMP), the HRTPO staff has released the *Average Weekday Traffic Volumes for Major Roadways in Hampton Roads* report on an annual basis since 2006. This new document continues that effort by detailing regional traffic volumes for the years 2007-2012. In addition, this report now includes for the first time speed data collected by INRIX. It also includes congestion levels based on the above volumes and speeds.

The draft version of the *Volumes, Speeds, and Congestion on Major Roadways in Hampton Roads* report will be made available for public review and comment from May 1, 2013 through May 15, 2013. The HRTPO staff intends to request approval of the final report at the June 2013 TTAC meeting.

Mr. Keith Nichols, Senior Transportation Engineer, will brief the TTAC on this item.

Enclosure 11: Volumes, Speeds, and Congestion on Major Roadways in Hampton Roads: Draft Report

**RECOMMENDED ACTION:**

Review the draft report and submit comments to Keith Nichols ([knichols@hrtpo.org](mailto:knichols@hrtpo.org)) by COB Wednesday, May 15, 2013.
